The 7 Habits Process

The 7 Habits of Highly Effective People training provides teachers with a toolset to be more effective within school and shows them how to apply these same tools for a better homelife.

Teachers will only have sustained success when they are able to effectively lead themselves, influence and collaborate with others, and continually improve and renew their capabilities. These elements are at the heart of all teacher's, whole-staff and school-wide effectiveness.

The 7 Habits of Highly Effective People training develops leadership effectiveness in Teacher Training settings at three levels:

INDIVIDUAL STUDENT LEVEL

Develop increased emotional maturity and resilience, greater proactivity and productivity, and the ability to manage one's self with more independence.

Follow through on critical priorities with focus and execute effective planning.

Take responsibility for one's physical, mental and emotional life so that the consequence is, 'I am in charge of my well-being'.

LECTURER / STAFF LEVEL

Increase staff involvement, engagement, morale and collaboration with a devolved leadership culture.

Empower every staff member to develop their leadership skills and contribute more.

Improve communication skills, reduce reactivity and strengthen relationships.

Develop staff throughout your school who model both character and competence.

WHOLE CAMPUS LEVEL

Create a framework that empowers staff and students with a common language to build a highly effective culture where everyone is living common values.

Increase engagement with proactive strategies to build high trust relationships.

Tap into the highest and best contribution of all stakeholders by unlocking the total strength, passion, capability, and spirit of each individual.

Empower your staff and student teachers by offering them the opportunity to complete The 7 Habits online CPD certified course.
